

Tomahawk Creek Wastewater Treatment Facility Expansion **Lee Boulevard Closing Starting June 2020**

Starting Monday, June 29, 2020, Lee Boulevard from Mission Road to the baseball field parking lot will be closed for Phase 1 of road construction and will re-open in early September.

- The map above shows the closure as well as the detour route.
- The baseball field parking lot will remain open to the public during the closure.
- Construction will raise a portion of Lee Blvd from Mission Road to the wastewater facility entrance above the 100-year flood level.
- Phase 2 of road construction is scheduled for 2021.

We appreciate your understanding. We will work to complete this task as quickly as possible while maintaining a safe work environment for our team and the community.

Project updates, schedule and live construction views are available on the project website:
